

AUDITORS' TIME CAPSULE

During the Auditors' meeting at the Auditors' and Treasurers' convention in June, 1989, a proposal was made to the Auditors by Tom Wilbur, Superintendent of Elections for Spokane County. Tom proposed that the Auditors' Association put together a time capsule that would not be opened until the year 2089 by the members of the association at that time. The proposal was enthusiastically received by the auditors and Tom volunteered to head the project. At this writing, a document is being circulated among the auditors for their signatures. The document will extend their greetings and hopes for the future to those who will open the capsule in the year 2089. It is planned that the capsule will be kept in WACO's office.

(above referenced Time Capsule has been and continues to be stored in the storeroom downstairs in the WA Counties building.)
